Objective: Motivated professional looking to make a change to the programming/development or IT field. Skilled in communication, teamwork, technology maintaining confidentiality, and organization.

Summary: Passionate software engineer looking to get foot into the field. Experience in full stack development. HTML, SCSS, Node.js, CSS, SQL, React, & JS.

Education/Training:

Graduate of Wesclin Sr High School, Trenton, Illinois. August 2016-May-2020

Vanderbilt University: April 2022 - September 2022

Coding bootcamp course on how to become a full stack developer

Employment:

February 2022-Present

FCB Banks - Personal Banker

I work on helping people that bank there with their transactions which are a variety of things. Such as depositing money, withdrawing money, doing money orders or cashier checks.

May 2021-June 2021

Top Notch Tops - Craftsman/ Truck Driver

I would work on counter tops cutting them and finishing them to the liking of the customer from when they arrived in the shop till they left. I would then deliver the tops to any customer that required them to be delivered.

September 2018-May 2021

JE SHORT INC (Mcdonalds) - Shift Manager

Planning and coordinating a shift with other managers that are working at that time. Implementing new procedures that will improve the customer experience. Adapting to any sort of change that happens during the shift and helping customers if needed.
